DETAILED ACTION

Claims 1, 9-10 were pending. Applicants have added claims 101-108.

Applicants need to amend the claims to include the R being only non heteroring groups.

The rejection of claims 1 and 92 over Rehse et al DN 106:183327 under 35 U.S.C.

103 still stands. A difference of one $-CH_2-$, makes a compound a homolog and homologs are considered to be a prima facie obvious variant.

Claims 92 now has R_2 being $R_6(O)alkyl-$ applicants arguments in the previous response

"the definition of R_2 in claims 1 and 92, amended claims 1 and 92 do not read on compounds A and B of Rehse et al.

*The definitions of R_2 in claims 1 and 92 have also been amended to replace Ro-alkyl with $RO-CH_2$. l-Hydroxyethyl ($-CH(OH)CH_3$) is the group in **compound C** corresponding to R_2 in claims 1 and 92. l-Hydroxyethyl ($-CH(OH)CH_3$) corresponds to Ro-alkyl, wherein R is H; and alkyl is ethyl. Because Ro-alkyl has been removed from the definitions of R_2 in claims 1"*

Applicants previous arguments are now no longer valid.

Compound C in the Rehse et al reference is given by

The phenyl R_5 group is substituted and R_2 in claim 1 is $ROCH_2-$, and in claim 92 is $R_6Oalkyl-$. Replacing a hydrogen with an alkyl group is prima facie obvious in the absence of a showing of unexpected results.

Art Unit: 1625

The rejection under 35 USC 102(b) over DN 94:57952 has been withdrawn for claim 1 and 92 , as applicants have amended the claims. However this rejection is also changed to a 103 .

Applicants have deleted the H but the alkyl group is still remaining and H verses alkyl is prima-facie obvious. Applicants do not have any showing of unexpected results. See the above 103 rejection.

The rejection under 35 USC 102(b) over DN 54:39146, GB 817357 has been withdrawn because the compounds have a COOH group for the R2 .

Applicant's amendment necessitated the new ground(s) of rejection.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 92, 94,98 and 100 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no mention of R6 in the specifications, also there is no definition of the term.

Conclusion

The claims are not found to be allowable.

Art Unit: 1625

Applicants should note that their definition of aryl is inconsistent with the normal meaning and it can include all hetero aryls too.

The restriction limits it to the non-hetero groups.

Claims 101-108 are found to be allowable limited to the elected group.

Claims 1, 92-100 are rejected.
